TEXTBOOK CATALOGUE

Grades 8 – 12

2015

INFORMATION ON THE 2015 TEXTBOOK CATALOGUE

The 2015 Textbook Catalogue is structured along the same lines as was the case for 2014 Textbook Catalogue, except that the approved Senior Primary textbooks evaluated in March/April this year will only be included in the 2015 Supplementary Textbook Catalogue to be released after April 2015. However, the following explanatory notes are still relevant:

- Subjects are listed in alphabetical order. Some subjects, however, have slightly different names in the different school phases. A case in point is Agriculture; in the upper primary phase (Grades 5-7), this subject is known as Elementary Agriculture, while it is only Agriculture for the secondary phase. In such cases, both subject names are given and cross-referenced, and the approved textbooks for the respective phases are listed only under the subject name applicable to that particular phase.
- Teachers' reference and support materials (Teachers' Guides) are listed separately in order to lessen confusion as to which are actually the core course materials. Thus, there is a list of approved core learning and teaching materials (i.e. learners' books with their supporting teachers' guide and other direct course-related support materials) under the name of the subject itself, and this is followed by a list of teachers' reference and support materials.
- There are cases where the information provided in this catalogue is incomplete. This is due mainly to the fact that the publishers concerned are not directly represented in Namibia, or that the information could either not be obtained or verified. It is therefore suggested that teachers and administrators enquire before assuming that the title is actually available.

Explanation of the columns in the Textbook Catalogue:

- **Grade** – This column lists the Grades for which a title has been approved. Where possible, the listings for Grades 11 and 12 include an indication as to whether the title has been approved for the higher [11-12(H)] or ordinary [11-12(O)] level, or both [11-12(O/H)].
- **Title** – This column lists the titles of the textbooks. At Junior primary level in Pre-Primary and Grades 1-3, where subjects are presented in the mother tongue, the titles will be listed in the 2015 Supplementary Textbook Catalogue (together with the approved Senior Primary textbooks evaluated in March/April this year) in their various translations followed by the name of the language concerned in brackets to indicate to teachers which translations have actually been approved for use in schools and can, therefore, be ordered.
- **Author** – This column lists the author(s) of a given item.
- **Date of Publication** – This column contains the year in which a given title was first published. This provides the teacher with an indication as to the age of the book and also allows the user to determine whether the title might in fact comply with the latest version of the syllabus in use for a given subject.
- **Publishers** – The publisher who produced the given title or the agent who represents such a publisher is listed in this column; in the case of a publisher's agent, the agent is listed first, followed by the publisher's name after a dash.
- **ISBN** – This number is used mainly for ordering purposes by distributors and is, therefore, of little relevance to teachers and administrators. Where there may be different textbooks with the same title or different editions of the same title, however, it is useful to indicate the ISBN on the order to ensure that the correct title is supplied.
